THE KLAN A POLITICAL MENACE

There is much said now-slays about injecting race and ty ligious prejuilice into the political issues when it comes to electing men and women to affice. Observation shows that the stronges the Ku Rlux Klan becomes in the city and state, the more keen these issues became at election times.

The klan has arrogared muto itself the title "one-hundred per cent Americans." Its members, and these aligible, to become members of that hooded band, are the sonly citizens of American according to its law, who are fit to field public office the Catholics. Negroes, and dews. LINCOLN UNIVERSITY APPROPRIATION

LINCOLN UNIVERSITY APPROPRIATION

The Missouri legislature, which has just adjourned, appropriated \$199,700 for the support of Lincoln University for the bi-dimunal period. This is \$2225,00 more than was appropriated for this institution two years ago.

The beard of Curator's had asked for \$517,000. We feel that, at least, \$500,000 should have been given, this being the only institution maintained by the state for the education of Negro youth in the higher branches of the arts and sciences. We realize that owing to the shorting of finance in the state's treasury, tought in the higher branches of the arts and sciences. We realize that owing to the shorting of the state in the fit when the higher branches of the legislature; but, in this case, we were asking the state to give its a start which has been defined the Segra youth of the state for lo, these many years.

It will be remembered that Lincoln is yet to be made an accredited credited. N. H. Young has the plane for making a real university of the plane for making a real university in which has been depicted to the plane for making a real university is what, we want to see. The colored people of this state want to see their university an accredit, of college which the boys and gifts will rave a pride in attending left as hope therefore, that no hindrances will be put in the way of its success.

There is no respect of persons with God, for he, out of one blood, created all men who dwell upon this earth.

When we think of such men as the Rev. Thomas Dixon, aunor of the "Birth of A Nation," and the hordes of profestant
emissives who are members of the Kin Klux Klan, we can't but
outle that surely the livell has many arrong agents in the church
coing as preachers of the gospel of Jesus Christ.

We do not say that Moore did it all, but we do know he corked hard and was an important factor in getting more than wice as large an appropriation for Lincoln University as was allowed that institution two years are. Things of this kind don't namen as a reacter of course. Think we beought to page
